

Breakout: The **Red** Vs. **Blue** Wars

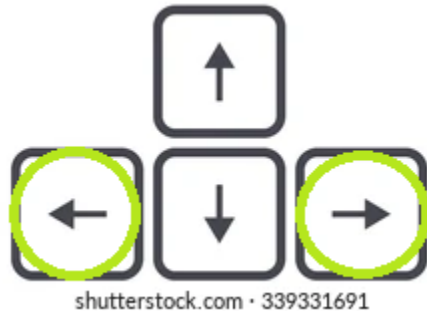

Instruction Manual

The Story:

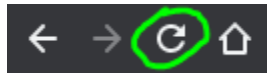

A group of evil **Red Bricks** have come to destroy you for taking their beloved purple energy orb to stop them from conquering the world, so you must guide the purple orb with the noble **Blue Brick** to defeat them! If you manage to destroy all of the **Red Bricks**, Good wins, but if you let the purple orb past your goal, Evil wins.

How to Play:

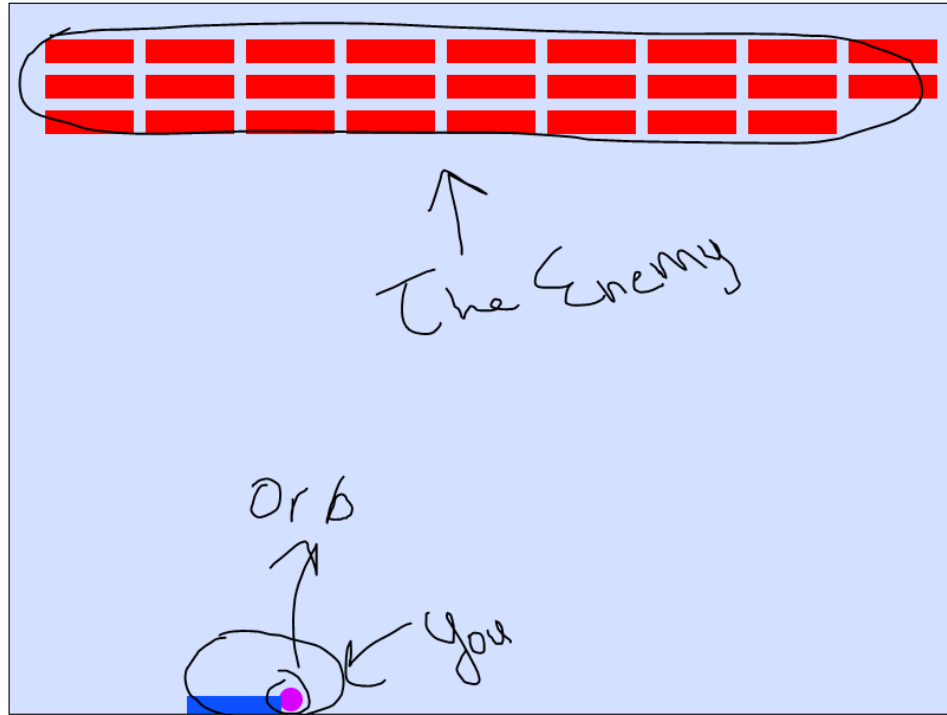

1. As soon as you load the page, the game will start. In order to move, use the left and right arrow keys to move your character. You will be in control of the **Blue Brick**, and it is your job to help guide him to shoot the purple orb at the enemy and to defeat the **Red Bricks** before they take over.

2. If you want to stop the game, or if you let the orb move past your character, the game will stop, and you will lose. If you want to try again, click the refresh button at the top of the screen to try again, or wait for the game to automatically restart.

3. The goal is simple: all you need to do is break all of the **Red Bricks** above your character with the orb to win. The orb will move faster as time goes on, so be careful. Remember: if it falls past **Blue Brick**, you lose.

4. You can choose to play the music provided if you want, or you can leave it off depending on your preferences. The arrow means the song is currently playing, and the bars mean it is paused.
